INSTRUCTIONS

Form 3-2094 is used to verify the use of administratively uncontrollable overtime (AUO), to establish the weekly average of AUO, and to determine the percentage rate for annual premium pay for the next or succeeding period.

This form is to be completed by all employees whose use of AUO is reviewed annually and whose rates are computed based upon information provided in this report. This form is not used by seasonal employees of survey and banding crews in the Office of Migratory Bird Management.

Additional instructions for completing this form are provided below.

- Section I. Hours in a nonwork status. Document all hours in a nonwork status for the identified categories. "Leave" category examples include those due to sick and annual leave, court leave, military leave, and excused absences. Hours reported as paid absences (i.e., all categories of paid leave and holidays) are considered hours of work under the Fair Labor Standards Act (FLSA) and, as such, are creditable for purposes of determining the days of qualifying duty for nonexempt employees. These hours should be counted in section 4.
- Section 2. Hours when no AUO was performed. Total the hours for sections 1 and 2 and divide the result by 8 to determine the number of full or partial days. Use the result of this computation to compute the number of qualifying days.

Sections 3, 4, and 5 are self explanatory.
